# GEN. KITCHENER PROPOSED TO

GRIZZLED HERO OF KHARTUM ASKED BY DAUGHTER OF KING GEORGE OF ENGLAND TO BE-COME HER HUSBAND-THE MATCH HAS BEEN PEREMPTOR-ILY DECLARED OFF.

London, May 29 .- Princess Mary, of England, daughter of King George, has proposed to Lord Kitchener. The royal proposal was whispered in the park of Windsor Castle one evening not long ago. Lord Kitchener gallantly asked the little Princess to talk with her father about the alliance. The

The grizzled hero of Khartum, home for a spell from Egypt, was escorting the Princess about the grounds. He is sixty-two years old, tall, straight as an arrow, stern as an Indien chieftain; she is sixteen, shy and a hero-worshipper. There was a lull in the con-versation as they walked over the well kept grounds, and Princess Mary, with her hand on his arm, told him, amid some confusion, that she had

something important to say.

Royal custom demands in cases of courtship between a woman of the royal blood and man of lesser nobility, the proposal be made by the woman. The embarrassment of this was what the little Princess had in mind and she said so, frankly enough, despite her blushes. She wanted to become her hero's wife, she said, and since she had to propose, she was do-

For the first time in many years Lord Kitchener smiled. He took heroic pains to conceal his amazement and amusement, however, beyond this one manifestation. He told her that he appreciated the great honor she con-ferred upon him by even considering his eligibility to become her consort, but that he felt much too old to consider it.

Something of the answer had occurred to the Princess before she put the question and she was prompt with a rejoinder. With a laugh she waved aside the age objection and said that her aunt, the Crown Princess, had married a man many years her elder and had lived a perfectly happy wedded life. Thus placed on the defen-sive Lord Kitchener made no definite reply to the proposal, suggesting instead that she talk the matter over

with her father. A day or so afterwards Lord Kitch-ener told the King of the naive propo-sal and the monarch roared with laughter. Thinking it too good a joke to keep, the King told Queen Mary. She faidel to see the humor of the situation and was furious and the only tangible result of the little Princess' effort to assert her royal prerogative was a week's imprisonment in her own

The original iron grill which surrounded the tomb of Mary, Queen of Scots, in Westminster Abbey, has been offered for sale in a London curio shop. The grill was stolen from the Abbey early last century. It is understood that the Abbey authorities are considering the question of purchasing the grill, which is held at \$3,000, but they have practically decided not to buy it back, for it would obstruct the view of the tomb.

Edwry Clayton, the Richmond chemist, who is charged with conspiring with the militant suffragettes in an arson campaign, is not the only male supporter of the Amazons, for the police are now looking for a fourteen year old boy, who is said to have left a trail of destruction behind. This boy, whose name has not been learned by the police, enlisted in the campaigr of destruction because his mother and sister had been sent to jail, where they were forcibly fed. The boy soon surpassed all of his feminine competitors in postbox raids.

Operating from his own home, the youthful raider is said to have fired ninety street postboxes. Postboxes were his specialty, but he is also believed to have devoted some of his time to the destruction of golf greens. Because he was not suspected, the boy was able to raid boxes in neighborhoods where a woman could not have escaped detection. The police may have some difficulty in locating the boy, who has been persuaded by his family to desist from the campaign on the plea that he has accomplished quite enough to avenge his militant relatives.

# FOR NEW DEPOT

LONG DELAYED MATERIAL TO BE USED FOR FLOORING BEGINS TO ARRIVE AND THE WORK CAN

A full car load of tiling for the floors of the new Louisville & Nashville passanger depot, reached the city yesterday and this morning this long delayed work will be commenced. The delay in laying the floor was caused by the sub-contracting firm which was to do the work failing and it was necessary to award the contract to another lire and the latter then had to secure the material and prepare for the work. All other work at the depot is now rapidly nearing completion, including the fence enclosing the depot, the gates installation of furniture and beautifying the grounds. Within two weeks most of the work should be finished.
